MOTIVE WAS REVENGE

Reason Why Orchard Killed Governor Steunenberg.

LOSS OF INTEREST IN MINE

Claimed by the Defense in the Haywood Case to Be the Motive That Impelled Orchard to Slay the Former Governor of Idaho.

Boise, Ida., June 29.—The attorneys for William D. Haywood continue to center their efforts on the discrediting of Harry Orchard and the establishment of their claim that Orchard killed Frank Steunenberg in revenge for the loss of his interest in the Hercules mine. Friday they directly attacked the story of the Vindicator explosion with the testimony of a witness who made it appear accidental rather than criminal.

Thomas Wood, a nonunionist who entered the Vindicator mine as a timberman after the strike began, swore that the night before the explosion he placed a box containing twenty-five pounds of giant powder at the shaft of the eighth level. He saw the powder the next morning shortly after 10 o'clock and a few minutes later Superintendent McCormick and Foreman Beck came to the eighth level. They remained but a short time and left to go to the sixth level, where they were killed. Wood swore that when he reached the shaft twenty minutes later the powder was gone and it was a reasonable inference that McCormick and Beck took it with them.

Wood testified that he had seen a revolver in Beck's pocket, that the fragments of only one revolver were found in the sixth level, and that the bodies of McCormick and Beck were blown apart, indicating that the explosion had occurred between them. Orchard said that he fixed a revolver with a wire attachment so that when the safety bar was raised it would send a bullet in the giant powder he had placed. One witness for the state has sworn that he found a wire attached to the safety bar, but Wood, who was among the first to reach the sixth level after the explosion, said that he carefully examined the safety bar and found nothing attached to it.

Threatened to Kill Steunenberg.

William Easterly, who concluded his testimony Friday morning, and D. C. Copley, who was called Friday afternoon, both swore that they heard Orchard tell of the loss of the Hercules mine and threaten to kill Steunenberg for it. On cross-examination the state scored them both and particularly Easterly, who received two letters and one telephone message from Orchard on the eve of the killing of Steunenberg, for remaining quiet when they knew a crime might be committed. Easterly contended that he did not know Steunenberg lived at Caldwell and explained that although he knew "Thomas Hogan" was Harry Orchard he took no steps immediately after the crime except to consult counsel for the federation, because he was an informer. Copley asserted that he did not take Orchard seriously when the latter told him of the Bradley crime.

There was a further showing as to the work of the bloodhounds at Independence, which the defense declares were sent first to the house of a deputy sheriff and then down the road on which Orchard made his flight to Denver. There were also denials and re-denials from Easterly and Copley of any form of misconduct on the part of members of the Western Federation of Miners.

CLEMENCEAU SUSTAINED.

Obtains Decisive Majority in Chamber of Deputies.

Paris, June 29.—The chamber of deputies by a decisive majority of 120 after an exciting eight-hour debate voted confidence in the government's policy to insure respect for the law. Premier Clemenceau's victory was more decisive than his most ardent friends had expected. During the session the extreme Socialists, who started the attack on the government, put forward speaker after speaker from the South, but notwithstanding the savage blows they struck they proved to be no match for M. Clemenceau, who is a past master in parliamentary debate.

The premier based his defense of the government's use of force upon the ground that the situation in the South with 200 municipalities striking and their population refusing to pay taxes could not be tolerated. With consummate skill he replied to the reproaches that he had become reactionary by recalling the long years during which he had fought in the ranks against oppression and referring to the time, when as of Montmartre under the commune, he almost sacrificed his wife in endeavoring to save French officers from a mob.

After M. Clemenceau had concluded, M. Jaures, the Socialist leader, attempted to turn the tide, but it was too late to make an impression and by a succession of votes the cabinet was sustained.

During the counting of the vote, M. Bedouce and another deputy came to blows. They were pulled apart by ushers. The altercation created great excitement. It probably will result in a duel.

STRICKEN OUT BY COURT

Instruction Prepared by Prosecution in Judge Loving's Case.

Houston, Va., June 29.—The argument of the attorneys in the trial of Former Judge William G. Loving for the murder of Theodore Estes began late Friday afternoon after a day spent by the attorneys in the preparation of instructions and a legal wrangle over them before the court. The instructions as read by Judge Barksdale discussed murder, its various details, the question of reasonable doubt, the time allowed for a man's angry passions to subside and insanity. The following instruction prepared by the prosecution touching on the "unwritten law" was stricken out by the court.

"No man under the protection of the law has a right to be the avenger of his own wrongs; if he be of a nature from which the laws of society give him an adequate remedy thither should he resort; that upon the theory of any nature, whatsoever, he has no right to avenge them, except in the manner prescribed by the law. The unwritten law, by which is meant the right of the citizen to become the avenger of his own wrongs in a manner not authorized by law or against the jurisdiction of Virginia."

Attorney Harmon for the prosecution and Attorney Strode for the defense each spoke for an hour and a half and the court adjourned for the day.

COUNT PETER HEYDEN DEAD

Noted Russian Zemstvo Leader Passes Away at Moscow.

Moscow, June 29.—Count Peter Heyden is dead. He was a member of the first Russian parliament, founder of the Peaceful Regeneration party, leader of the zemstvo movement that preceded the convocation of the first parliament and he headed the delegation that was sent to Emperor Nicholas by the zemstvo congress of 1905 held in this city.

For a number of years Count Heyden had been one of the leaders of the Moderate Liberal element in Russia, upholding the autocracy but advocating a parliament. He was born about sixty years ago.

CONCLUDES HIS TESTIMONY

Case of E. S. Holmes, Jr., Will Soon Be Ended.

Washington, June 29.—E. S. Holmes, Jr., former associate statistician of the agricultural department, concluded his testimony in his own behalf in his trial on the charge of divulging crop reports and with his statement the evidence in the case practically was concluded. The government consumed the entire afternoon in the presentation of its prayers for instructions to the jury and the defense will be heard Monday. It is expected that a verdict will be secured next week.

Louisiana Negro Lynched.

Alexandria, La., June 29.—The body of Mathias Jackson, a negro, charged with criminal assault, was found hanging to a tree about twelve miles from here. He had been lynched after being taken from a deputy sheriff who was bringing him here for safe-keeping. This is the second lynching this month near here.

TAFT DENIES REPORTS

Administration Not Dissatisfied With Canal Management.

WILL NOT RELINQUISH POSTS

Declares Officials in Charge of Canal Construction Will Not Cease Their Labors—Denies That Goethals Desires to Quit His Job.

Washington, June 29.—"It is a tissue of falsehood," said Secretary Taft when his attention was called to the reports of dissatisfaction on the part of the administration of the management of affairs under the isthmian canal commission and the intention of the officials engaged in that work to relinquish it and return to the United States. The secretary was very emphatic in his declaration that he had not received a single communication from Colonel Goethals showing in any way that he was dissatisfied or desired to end his connection with the work.

"No immediate change is contemplated in the administration of affairs on the isthmus," continued the secretary, "and there has not been a single kick of any sort. There is no truth in the story of the army officers asking for leaves of absence to return to the United States."

Continuing, the secretary said:

"The work appears to be progressing finely. It is true that in a recent month the excavations made under Colonel Goethals were 150,000 cubic feet less than under his predecessor but this was due to a strike and to other causes beyond his control. Colonel Goethals will have all the help in the way of army officers he may need with a view to the thoroughness of the work he has in hand. His assistants I am leaving to his own selection, nominating those I think would be able assistants and leaving it to him to confirm them."

"What about David W. Ross, the retiring general disbursing agent?" was asked of the secretary.

"Mr. Ross' resignation was not asked for," the secretary replied. "His work has been in every way satisfactory and he was one of the most efficient officers we ever had. Because of his private business Mr. Ross wanted to leave the commission on the first of June, but I wanted him to stay at least until July 15."

Secretary Taft declared that the resignation of Engineer Ripley was voluntary and that General Manager Bird of the Panama railroad has not resigned as has been reported, and he added:

"If Jackson Smith, the commissioner who has charge of all the labor on the isthmus, has resigned, I don't know it."

BANKERS FILE COMPLAINT

Accuse Express Companies of Usurping Their Powers.

Washington, June 29.—One of the most important cases yet filed with the interstate commerce commission under the new railway rate law was presented by the American Bankers' association. In brief the complainant alleges that the express companies, through their powers and facilities as common carriers, are usurping the prerogatives of the banking associations and at the same time are employing the capital of the banks of the country in the conduct of their business. It is alleged that the operations of the express companies in the conduct of their exchange business is seriously detrimental to the interest of the banks and that the use of the interstate facilities and the relations which the express companies have with the railways enable the companies to discriminate against regular commercial operations of banking institutions.

REVOLT IN ECUADOR.

New Rebel Band Appears and Captures Quevedo.

Guayaquil, Ecuador, June 29.—The revolution that was supposed to be dead has broken out afresh and a new rebel band of 100 men has appeared at Quevedo, an important center in the province of Los Rios. The rebels have occupied Quevedo without resistance and have burned the village. Advice from Esmeraldas say the inhabitants of that province are panic stricken as the result of frequent earthquake shocks felt throughout the province during the past week.

Boy Drowned.

St. Paul, June 29.—Frank, the six-year-old son of Michael Finn, 514 Bay street, was drowned by falling into the Mississippi river near the old site of the Banholzer brewery. The lad was sitting on the bank of the river, which is high at that point, and he slipped. Before any attempt could be made to rescue him he disappeared in the water and was carried away by the current. The body has not been recovered.

FIVE CHINAMEN KILLED.

Express Train and a Special Collide at Butler, Can.

Winnipeg, Man., June 29.—Number 97, regular westbound Canadian Pacific railway express, and a Chinese special going east collided at Butler, 275 miles east of here. The accident resulted in the death of five Chinamen on board the special and the serious injury of E. U. Connor of St. Johns, N. B., a guard on the special.

The wreck was due to a misunderstanding.

McFarland Defeats Neary.

Milwaukee, June 29.—Paddy McFarland, the young lightweight from Chicago, defeated Charlie Neary of Milwaukee in a ten-round bout before the Badger Athletic club. The decision was received with cheers. McFarland had the better of the Milwaukee boy in nearly every round.

BECHTEL SENTENCED.

Minneapolis Man Gets Five Years in State's Prison.

Minneapolis, June 29.—W. F. Bechtel, former president of the Northwestern National Life Insurance company, was sentenced to state's prison for five years. He was convicted of grand larceny from the company while in office. An appeal is promised.

Work on Culebra Cut.

Colon, June 29.—Despite the loss in time occasioned by the strike of steam shovel men in May and by the heavy rainfall, the earth taken from the Culebra cut during the past month exceeded 500,000 cubic yards.

CHURCH BASE BALL LEAGUE

Games on McKay Grounds at 7 p. m.

The game Friday evening between the First Congregational church team and the First Y. M. C. A. team was easily the sloppiest on the schedule so far. It was simply a case of battery and no battery. The Congregational team won the toss up and took their outs with Jim Alderman in the box and Quinn Parker behind the bat. Jim started in wild and struck the first two men up, giving them their bases. He steadied down, however, and struck out the next up, shutting the opposing team out without a score in that inning. The Y. M. C. A. team put Gus Small in the box and Chas. Rice behind the bat, but Small was too small so they took him out and put Orth in. Orth was certainly big enough, but though he held them down better than Small he was not fast enough for the bunch of stickers that the Congo team had assembled and when the trouble was over the score stood 10 to 1 in favor of the church team.

The games of the church league are characterized by much good natured joshing but are played in a clean manly manner with little rag chewing of an ill natured sort and are creating a great deal of healthy enthusiasm. There was a good sized crowd of fans, composed largely of the members of the various teams of the league present with a good sprinkling of ladies and several of the pastors of the city present.

The lineup of the teams was as follows:

| | |
|-----------------|-------------|
| 1st Y. M. C. A. | First Cong. |
| Rice | Parker |
| Small | Alderman |
| Cromwell | Dick |
| Orth | Willis |
| Northrop | H. Ousdahl |
| Sundberg | R. McGinnis |
| Loom | Bennett |
| Olsen | C. Ousdahl |
| Anderson | Clouston |

W. H. Cleary umpired the game and came in for the usual amount of joshing but gave good satisfaction to both.

Tonight the two Y. M. C. A. teams will meet and as the first team will probably be strengthened up some and as they had very little practice last night the game will be a much closer one than that of last night. All members are urged to be on hand so as to start the games at 7 sharp as the days are already beginning to grow shorter and it gets dark earlier each night.

On Monday night the Congregational team will meet the Catholics and as both teams are strong ones there will be a good game. In fact all the games have been very interesting, even if one or two have been one sided. The following is the schedule for the season:

June 26, Catholics vs. Presbyterians.
" 27, Association 2d vs. Peoples.
" 28, Association 1st vs. Cong.
" 29, Association 2d vs. Ass'n 1st.

BAD STORM

LAST NIGHT

Flag Staff in Front of J. W. Koop's Residence Shattered by Lightning

STORM WAS WORSE WEST

Pawnee Bill Advertising Car Reports Passing Through Very Bad Storm

The storm last night was a bad one. While but little was done here it is said to have been a fierce proposition west and northwest.

About the damage done in the city was the shattering of the flag staff in front of J. W. Koop's residence. The bolt entered the pole at the top and cut it to pieces about ten feet from the top and shattered it all the way down. There were splinters scattered all around the yard and some of them were sticking up in the ground like arrows. J. W. says no other damage was done except scaring the life half out of him.

Paul W. Harrell, manager of Pawnee Bill's advertising car which is in the city today states that they ran into a hail storm last night about twelve miles west of Grand Forks which was one of the worse he ever experienced. It was so fierce that the train was compelled to come to a stand still and the hail continued to fall for about fifteen minutes. The hail and rain were so thick and it became so dark that it was impossible to see a car length in any direction. One of the crew with the car was in the St. Louis cyclone and he states that the storm last night had him worse scared than that did. They say that they saw no signs of damage from the storm this morning.

Manager Jones reports that there were 75 telephone knocked out by the storm last night and five toll lines. Most of the city phones are in commission again tonight.

Wild West Show Coming

Pawnee Bill's Wild West and Great Far East Show will spread its tents here on July 12th, and give afternoon and evening performances. Its owner is the man who opened Oklahoma to public settlement, and who is the only "White Chief" of the Indians and who is historically famous as cowboy, guide, explorer, plainsman, and soldier. He founded the City of Pawnee, Okla., and is the president of the Arkansas Valley National bank of that place.

The organization travels in fifty cars and comes with a metropolitan demonstration of supremacy, full of honors of Europe and with a record of more than a score of years of ever increasing popularity. Its crowning feature, "The Great Train Robbery" is the melodramatic spectacle which was the sensation of New York last summer, a locomotive engine and train of cars are employed. Pawnee Bill has the exclusive traveling rights. Nothing like it was ever seen under canvas it is said.

The other multifarious departments of the Pawnee Bill's institution are an improvement in every way over anything that has gone before. The dreamy and imaginative orient, mysterious Hinduland and savage Africa and Australia are mingled with the whooping west and its cowboys, cowgirls, Indians, soldiers, vacuaries and picturesque companions and their concomitants.

WHERE TO WORSHIP

Like other departments of the DAILY DISPATCH this one was somewhat demoralized by the fire and until the new equipment arrives will necessarily be confined to simple announcements of subjects, special services, etc. The regular "Where to Worship" column will be resumed every Saturday as soon as possible.

At the German Evangelical church the morning subject will be "The New Heaven." Evening subject, "Christ all in all." The evening services will be in English. A cordial welcome is extended to all.

At the Presbyterian church Sunday morning the pastor will take for his subject, "Soul Prosperity." In the evening J. C. Manville, the Y. M. C. A. secretary will speak. Everybody is invited.

At the First Methodist church Rev. Chas. Fox Davis, the pastor will take for his morning theme, "Where is the Kingdom of God: Is it a Myth or a fact?" At the evening service the pastor will give an address on American Patriotism, his subject being "America." All lovers of patriotism are especially invited to attend.

At the People's church the pastor will take for his morning subject, "Murderers Past and Present." In the evening he will speak on "Missing the Work."

The Charming Woman

is not necessarily one of perfect form and features. Many a plain one who could never serve as an artist model, possesses those rare qualities that all the world admires; neatness, clear eyes, clean smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth velvety skin, beautiful complexion. Guaranteed at H. P. MUSIC AND DRAMA

Dockstader's Minstrels.

One of the most magnificent stage pictures ever presented will be the feature of Lew Dockstader's minstrels which will be seen at the opera house, next Friday evening. The scene which has been fully protected from infringement is the result of Mr. Dockstader's ideas as worked out by the greatest scenic artists in the world. It forms the mistle first part and is known as "The Palace of Emeralds." The setting itself is one of great beauty which is further heightened by the introduction of myriads of jewels which by dint of the manipulation of powerful electric lamps assume all the colors of the rainbow, the whole resolving into a picture of surpassing magnificence. This season Mr. Dockstader will be seen as the "Editor of the Bungtown Corker," in which he will depict the troublesome career of a newspaper man. Neil O'Brien, in a new sketch, John King, John Daly, the Foley Brothers and others contribute fun, while the singing is in the capable hands of such stars as Joe Natus, James Reaney, Wallace Mersereau and others.

GARBAGE MEN ON STRIKE

Unsanitary Conditions Prevail in New York City.

New York, June 29.—Believing that the health of the city was menaced by the continuation of the strike of drivers of garbage wagons, Mayor McClellan went over the head of Commissioner of Street Cleaning Craven and placed the responsibility for the collection of garbage with the health department. The health people made heroic efforts to re-establish sanitary conditions. A strike of drivers for the American Ice company also went into effect and with garbage on the sidewalks and no ice in many refrigerators, New York residents passed a somewhat unpleasant summer day.

Craven had been unable to break the strike of the 2,000 men whose duties are to gather the cans of refuse set out by householders in Manhattan and the situation had become acute. For three days the streets of the East Side have been literally strewn with rapidly decaying kitchen waste, while a disease-breeding stench has filled the air. Bonfires were made in the streets, but these generally failed in their purpose.

Though many new drivers were secured they made slow progress, were frequently attacked and driven from the wagons by strike sympathizers and when night fell the accumulations appeared quite as great as ever. While the East Side and lower West Side suffered most, cans of garbage exposed for hours to the hot sun stood on Park Row, while the side streets were choked with waste. It is threatened that the strike will spread to Brooklyn.

PANIC IN AN OPERA HOUSE

Caused by Blowing Out of a Fuse in a Kinetoscope Machine.

Chicago, June 29.—The blowing out of a fuse in the kinetoscope machine operated in the gallery of the Chicago Opera House caused a panic among the occupants of the balcony beneath. As soon as the explosion occurred the lights in the theater were turned on full force and the employees of the playhouse went among the patrons to quiet their fears, but many fled from the place. The only person hurt was the operator of the machine and his injuries are not serious.

ADDRESS BY CHOATE

Impresses the Delegates to the Peace Conference.

THE AMERICAN PROPOSITION

Providing for the Exemption of All Private Property Excepting Contraband From Capture on the High Sea Likely to Be Adopted.

The Hague, June 29.—The sitting Friday of the first committee of the peace conference afforded an opportunity for Joseph H. Choate, the American delegate, to deliver an eloquent speech upholding the principle of the exemption of all private property, except contraband, from capture on the high sea. The success obtained by his speech left the impression that the American proposition, which in the conference of 1899 was taken only for consideration, this time will be approved unanimously. The sitting, which lasted two and one-half hours, began with the consideration of the following questions:

First—Do practice and legislation admit of belligerent states transforming merchantmen into warships?

Second—In the case of merchantmen being transformed into warships, what are the legal conditions that belligerents must observe?

Third—Is the present practice relating to the capture and confiscation of merchantmen sailing under a hostile flag to be maintained?

Supported American Proposition.

Then began the debate on the exemption of private property at sea. Baron Macchio, Austria, supported the American proposition, saying his country had adopted a most liberal view on this subject.

Senor Barbosa, Brazil, gave a historical survey of the attitude of the United States and quoted from diplomatic documents showing how Brazil had ever associated herself with the United States on this question. He eulogized the position assumed by the United States, which he declared was the view of the whole American continent.

Mr. Choate then made a speech based on the American declaration in the conference of 1899. He referred to the different occasions in which the United States had proclaimed her support of the doctrine—by treaties with Prussia in 1875, with Bolivia in 1858, and with Italy in 1871. He enumerated the circumstances under which this principle received the approval of jurists and the sympathy of nations, while eminent authorities like Palmerston, Cobden, Bluntschli, Nesselrode, Wolsey and Maartens had favored it.

Mr. Choate concluded by saying that President Roosevelt attached much importance to the question and that he wished to evoke an expression of opinion on it by a vote of all the countries represented at the conference.

Professor de Maartens, Russia, thanked Mr. Choate, saying that his remarks had greatly elucidated the question.

Count Tornielli said the Italian government favored the American principle.

The discussion was then adjourned until the next meeting of the commission on next Wednesday.

KILLS HIS WIFE.

Minnesota Man Hits Her on the Head With a Stick of Wood.

Waverly, Minn., June 29.—Because his wife cut his wrist with a bread-knife after refusing to cook dinner for him, John J. Mooney killed her by striking her on the head with a stick of stove-wood.

Mooney, who expresses almost frenzied grief over his crime, is well-known throughout Wright county and the tragedy has created a sensation.

Back of the story of the tragedy is one of continual quarrelling between man and wife that began about two years ago when Miss Mary T. Reichel of St. Paul secured a verdict against Mooney for \$5,500 damages for breach of promise. Mooney had been married but a short time when the litigation was terminated.

Mooney gave himself up to Marshal Kritzke. The coroner and sheriff were sent for.

Ricker Sentenced to Prison.

St. Paul, June 29.—Harry E. Ricker, convicted of grand larceny in the first degree, was sentenced by Judge Lewis in the district court to three years and six months at hard labor in the state prison at Stillwater. He was convicted of grand larceny for taking nearly \$3,000 of the funds of the Metropolitan Opera House, of which he was treasurer. He claimed he was held up and robbed by two men.

Russian Prince Killed.

Tiflis, Russia, June 29.—Robbers entered the residence of Prince Charvoze, killed the prince and plundered the house.

DOE TO SUMMER WEATHER

Improvement in Crop Situation and Enlarged Retail Trade.

New York, June 29.—Bradstreet's review of trade says seasonable summer weather has further improved the general crop situation, enlarged retail trade and favored a larger volume of reorder trade with jobbers and manufacturers than seemed possible a few weeks ago. Six months' results in wholesale and jobbing lines show the effect of recently improved conditions, but also reflect the large gains in trade noted in the first quarter of the year. Taken as a whole, leading wholesale lines will show a six months' business 5 to 10 per cent at least in advance of 1906. Very much the same report is made by leading industries, which have generally surpassed records made in the first half of a year ago. On the other hand, collections, while improving in some sections, have tended to drag in others, suggesting excessive stock or spring goods held by retailers. It is also to be noted that high prices of material and labor are reflected in reports of less activity in building at a number of cities, with some easing in prices of lumber and other materials.

BREAKS AUTO RECORD.

Eddie Bald Makes Fast Time in Race at St. Paul.

St. Paul, June 29.—World records were smashed into bits and sent to the rear at the automobile races at the state fair grounds track and incidentally a new record was established that will make the automobiles go some to cut down. The record-breaking act was pulled off in the twenty-five-mile open to touring cars, with the option of stripping. The previous record of 32:10 for twenty-five miles on a circular track was chopped down to 29:28½ by Eddie Bald, while the second and third machines both finished below the record with 31:50 and 31:56 respectively.

The meet was devoid of accidents with one exception. Ed Zerbies crashed into the inside fence near the half-mile post in the twenty-five mile, and ripping off thirty feet of fence, landed in a ditch with his machine, but Zerbies escaped without a scratch, remaining in his machine until it stopped.

TELEGRAPHIC BREVITIES.

Dr. Popoff, medical inspector of the harbor of Odessa, Russia, has been assassinated.

It is officially announced that the Russo-Italian commercial treaty has been signed in St. Petersburg.

Max Littman, aged thirty-one years, shot and instantly killed himself in his room at 2708 Chicago avenue, Minneapolis, as a result of a long period of ill health.

O. C. Thompson, who was shot by Marshall Ed Regan of Sandstone, Minn., Thursday morning and who was brought to St. Paul, died at the city hospital in St. Paul.

The principal English, Scottish and Welsh steel railmakers have entered into an agreement with competitors abroad with a view of safeguarding their respective spheres of influence.

BEWARE OF STRIPES.

Animals That Wear Them Are Said to Be Treacherous.

"Show me a striped wild animal, and I will show you one you want to keep your eye on," said the circus man. "I have had to do with wild animals now for a good many years—I won't tell you how many because I am getting old enough to feel the weight of these time posts—and I have never yet come up with a striped beast that did not show mean traits."

"Sometimes I wonder if this is not the way nature has of marking up the bad fellows so that they may be known, just as we put striped suits on the impossibly bad of the human kind. Take hyenas, for instance. They come under the head of a dog species. How seldom you ever hear of a dog snipping the hand that feeds it! These ugly things are liable to do it any time."

"Zebras are pudgy little horses with stripes that give away their temperament. Every now and then you hear of zebras broken to harness. Well, I have seen a few of these, but they didn't go far before something else was broken besides the zebra's mean nature. They are strong and good looking, but so infernally cussed that there is no doing anything with them. "Sometimes a lion's mane is marked with uneven black circles. When this is the case, it is wise not to get too familiar. It is the sign of a bad streak somewhere in Leo's makeup, and there is no telling when this strain might turn his strength into savage danger."

"The elephant is good natured and obedient. The camel takes life easily and doesn't seem to worry about anything so long as he is left to munch by himself. A bear with a fur of several shadings is a bad one to take risks with."

"The tapir is a harmless beast and rather affectionate. He can even cry. Big rolling teardrops show this when his keeper cuts him out of a meal or goes away for a day or two. The llama is an animal sort that may be properly classed with the spotted animals. Brown and white and black and white in huge splashes lend to the good looks of its curling coat. It has big lamblike eyes and would run from a baby."—Boston Globe.

Wife Appreciated It.

They have just "blown themselves" for a new bed, an old fashioned, colonial sort of bed, that looks as though it might have been in somebody's family for a hundred years or so, and they think a great deal of it. They have discussed its many merits time and again, but it remained for the young wife to discover one feature of the new bed that had never appealed to the husband.

"There's one thing I like about the bed," said she, "about the sideboard, and the way it's put on."

"What's that?" asked he.

"It's so low I don't believe a man could crawl under it," said she.—Indianapolis News.
